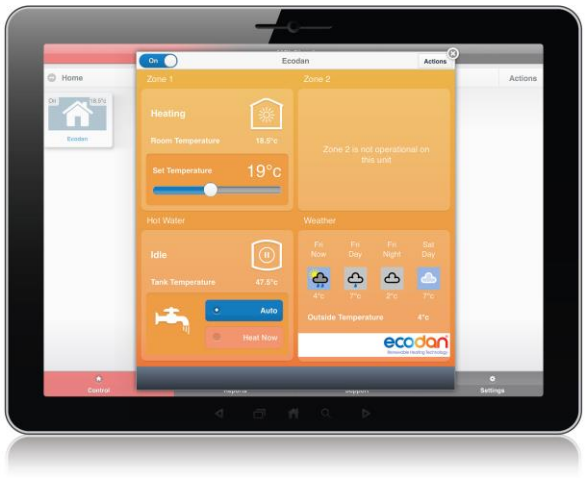
Launch of MELCloud for Ecodan Air to Water Products

Mitsubishi Electric is delighted to announce the launch of MELCloud for Ecodan air to water products. MelCloud is a new “cloud based” solution for controlling Mitsubishi Electric Ecodan heating systems either locally or remotely by PC, Mac,Tablet or Smartphone (Apple, Samsung, Microsoft, Blackberry and many more), giving easy remote access and control via the Internet.



MELCloud is designed to provide extensive user and device coverage and works with the majority of Internet browsers from Microsoft, Google, Apple and others. The application will automatically detect screen size and resize accordingly.

Apple and Android Apps are now downloadable from European ITunes and Google Play stores, all free of charge.

Mitsubishi Electric Heating Systems
Travellers Lane, Hatfield, Hertfordshire, AL10 8XB Telephone: 01707 278666
Email: heating@meuk.mee.com Web: www.heating.mitsubishielectric.co.uk

Key functions such as heating set point, hot water, holiday mode are controllable and temperature and operation monitoring functions are also available. The service is available throughout Europe, and the application has been designed with the majority of European languages supported at release.

MELCloud will operate on all FTC4 products and requires a Wi-Fi adaptor PAC-WF010-E Interface (SAP number 268631, cost £72) and a wireless router connection (WPS connection function required).

A firmware update for existing FTC4 stock is also required and this update may be carried out using the SD function within FTC4.

The following launch pack information “MELCloud for Ecodan” contains the following and is attached to this email.

1) - Declaration of Conformity
2) - PAC-WF010-E Installation Manual
3) - MELCloud User Manual
4) - Product Information sheet
5) - MELCloud Sales Leaflet
6) - Introductory Presentation
7) - FTC4 Firmware Update and Instructions

The first 5 in this list are also now on the Digital Library www.library.mitsubishielectric.co.uk

Items 4 and 5 are also available as hard copy to give to Installers and End Users and can be ordered through your usual literature channels.

For further information please visit MELCloud.com where you can access a demonstration area to show customers the MELCloud interface. Simply click “Login”, choose your language, click “Show Demonstration” and then click on the heating icon.
